RESULT SHARE

In relation to an *insurance period*, We shall calculate a result share subject to the following conditions:

1. We calculate the balance of the profitability account of the *insurance period*.

The profitability account of the *insurance period* shall refer to the balance between:

- on the credit side: the premium paid for the *insurance period* and
- on the debit side: (i) the total amount of indemnity paid or to be paid with respect to **Deliveries** made during the *insurance period* less the **Recoveries** related to such **Deliveries** and received before the profit share is paid and (ii) [x]% of the premium paid.

If there is an indemnity for **Collection Expenses** but the **Debt** has been paid in full before indemnification by Us, We shall not take into account the indemnity for **Collection Expenses** in the calculation of the profit share.

2. If the balance of the profitability account shows a credit balance, We will refund to You [x] % of the balance of the profitability account, provided that :

- (a) the premium paid for the *insurance period* after deduction of the profit sharing exceeds the *minimum premium*;
- (b) the premium for the *insurance period* has been paid to Us in full, and
- (c) this **Contract** remains in force for a further *insurance period*.

If the balance of the profitability account shows a debit balance, We will invoice You a malus calculated as a [x]% increase to the *minimum premium* and the premium rate(s) on the concerned *insurance period*.

3. In order to receive the payment of the profit share You must, within [x months] from the last day of the *insurance period*, request from Us in writing the payment of the profit share and submit to Us a waiver whereby You waive your rights to payment of any subsequent indemnities relating to the *insurance period*.
