M_PRE_GGRPMP_02_ST

GROUP MINIMUM PREMIUM

The *Group Minimum Premium* is [x] per *insurance period* and corresponds to the sum of the Subgroup 1 Linked Minimum Premium and Subgroup 2 Common Minimum Premium.

A *Group Minimum Premium* for a given **CGS Contract** can either be a *Common Minimum Premium* or a *Linked Minimum Premium*.

For the calculation of the *Linked Minimum Premium* all **CGS Contracts** participating in the *Common Minimum Premium* form one individual minimum premium incorporated in the *Linked Minimum premium*.

COMMON MINIMUM PREMIUM

The *Common Minimum Premium* is [xx] per *insurance period*.

If the aggregate amount of all premium amounts is below a *Common Minimum Premium* the difference has to be paid by the [**Head of the Insured Group/support insured**].

LINKED MINIMUM PREMIUM

The *Linked Minimum Premium* is [xxx] per *insurance period*.

CGS Contracts participating in a *Linked Minimum Premium* have to pay their individual minimum premium set within them. If at the end of an insurance period the *Linked Minimum Premium* is exceeded a surcharge of premium is refunded up to the positive balance.
